Robert Tubb's LAWN SEED MIXTURES

FOR THE DISCRIMINATING BUYER

Due to various unfavorable circumstances supplies of grass seed are much below normal, resulting in considerable price increases. We are, however, happy to say that we are able to supply the same mixtures which have made such a fine reputation for themselves at only a very slight increase in cost. A comparison of the analysis of our No. 1 Formula (given below) with other similar mixtures will show that our prices are still very reasonable for a mixture which ranks with the finest on the market.

GRASSES USED IN OUR NO. 1 FORMULA FOR SUNNY PLACES

30% Chewings Fescue	30% Creeping Red Fescue
25% Kentucky Bluegrass	5% Fancy Red Top
	5% Highland Bent
5 lbs. \$7.50	10 lbs. \$14.50
	25 lbs. \$35.50
	50 lbs. \$70.00

MERION KENTUCKY BLUEGRASS MIXTURE

Our standard mixture is identical with our No. 1 Formula except that Merion Blue is used instead of regular Kentucky Blue.

5 lbs. \$10.00	10 lbs. \$19.00	25 lbs. \$46.50	50 lbs. \$92.00
----------------	-----------------	-----------------	-----------------

No. 2 FORMULA FOR SUNNY PLACES

A mixture designed to withstand rough wear, insects and fungus diseases and yet produce a lawn of good quality and pleasing appearance if given ordinary attention.

5 lbs. \$7.00	10 lbs. \$13.00	25 lbs. \$32.00	50 lbs. \$63.00
---------------	-----------------	-----------------	-----------------

No. 3 FORMULA FOR SHADY PLACES

None but the finest grasses are used in this mixture which is the result of careful study to obtain the maximum in appearance and durability under shady or semi-shady conditions.

5 lbs. \$7.50	10 lbs. \$13.50	25 lbs. \$33.00	50 lbs. \$65.00
---------------	-----------------	-----------------	-----------------

PASTURE MIXTURES

For general purposes and average conditions we offer Formula No. 6 at \$110.00 per 100 lbs.

We shall be glad to supply special pasture formulas for unusual conditions and are always available for consultation. In such cases we would appreciate advance notice of several weeks before delivery is required.

WILD WHITE CLOVER

This variety has now superseded the old White Dutch Clover hitherto used for lawns. Wild White makes a smaller leaf, grows low and close to the ground and gives crab grass much more competition than the older variety.

1 lb. \$3.00	5 lbs. \$14.50

ROBERT TUBB'S VEGETABLE..SEEDS

OF THE HIGHEST QUALITY

Although we carry many more varieties than those listed in the following pages and shall be happy to supply any not catalogued, we believe these newer sorts, plus a few old varieties which, in our opinion, have not yet been improved upon, will give our customers the maximum yields and everything that could be desired in quality.

TREATED SEEDS

Much of our seed is treated by us at no extra cost with Spergon, Arasan or Ceresan. Experiments in recent years conducted by leading State Experimental Stations have proved that the treatment with these products protects the seed against cold damp weather and acts as a preventive against soil carried fungus diseases, thus resulting in healthier plants and heavier yields.

BEANS

DWARF GREEN BUSH — STRINGLESS

BEAN, TOP CROP
(See next page)

PLANTS

Typical seedlings and transplants of greenhouse Snapdragons.

Due to the increasing demand for plants we have made special arrangements with one of the country's largest growers of seedlings, with whom we have been dealing for a number of years, to have plants sent direct to our customers.

We have always found plants obtained from this source to be highly satisfactory, very well packed so that they invariably arrive in perfect condition. They are grown from seed sown in sterilized soil and whenever possible the seed is obtained direct from the originator.

GREENHOUSE SNAPDRAGONS — Available in late Summer or early fall.
